Dear Hiring Manager,

My name is Edwin Martinez Granados, and I am a high school student interested in opportunities that will allow me to gain experience, develop new skills, and contribute positively to a team. I am writing to introduce myself and share some of the qualities and experiences that make me a dedicated and hardworking candidate.

Throughout high school, I have worked to build a variety of skills both inside and outside the classroom. I have experience with HTML, CSS, JavaScript, Photoshop, GitHub, OpenAI tools, NotebookLM, and cooking, and I type at approximately 32 words per minute. I enjoy learning new technologies and am always looking for ways to improve my knowledge and abilities.

In addition to academics, I have participated in boxing during the 2025–2026 school year, which has taught me discipline, perseverance, and the importance of setting goals. I was also recognized on the Principal's Honor Roll in 2024 for maintaining a GPA of 3.5, demonstrating my commitment to academic achievement.

Giving back to my community is important to me. Through volunteer work at my church, I helped distribute food to community members in need. This experience strengthened my communication skills and reinforced the value of helping others.

My strongest personal asset is my drive to learn and follow through on responsibilities. The three words that best describe me are curious, thoughtful, and direct. These qualities help me approach challenges with a positive attitude and a willingness to grow.

After high school, I plan to pursue studies in Fine Arts/Visual Arts and am considering attending Coalinga College, Fresno City College, or Fresno State. My career goals include becoming a photographer, working in the coffee industry, or pursuing opportunities in customer service.

Thank you for taking the time to learn more about me. I would welcome the opportunity to discuss how my skills, work ethic, and enthusiasm can benefit your organization. I look forward to hearing from you.

Sincerely,

Edwin Martinez Granados
